COUNCIL HOLDS FRUITLESS SESSION

The council held a protracted session last evening, but accomplished very little, so far as tangible results go. The absorbing question was what sort of test the Byrd's Mill pipe line should be subjected to, but the discussion developed that no one knew just what should be done about it.

The contract calls for a pressure of 200 pounds, but this contemplated the testing of the line by sections as it was put down. Now since the entire line is in, a pressure of 200 pounds at the standpipe would mean over 300 at Jackfork, the lowest point on the line. However, the committee having the matter in hand will doubtless reach some conclusion in a short time.

Another question that must be settled is Johnson's claim for extras. Under his original contract he would have received something over \$16,000 but he has figured out the modest little sum of \$9,000 additional which he claims is due him. Much of this is for going through rock where it was not expected at the beginning, and for having about five times the amount of trouble in putting in the wood pipe than he had figured on. These claims will be gone over by the council, the engineer and Mr. Johnson's attorney, and if possible an amicable settlement will be made without a law suit.

A special committee composed of M. D. Timberlake, E. S. Ratliff and I. Wymore has been at work today trying to reach something definite, and will probably succeed.

Cotton Unchanged.

The ginner's report given out yesterday differed so little from the estimates already made, that the price of cotton was affected very little. Although it closed a few points lower today, the price on the streets was about the same as yesterday. Some early cotton brought as high as 9c.

R. M. Roddie and B. H. Epperson returned last night from a trip to Wewoka and Shawnee.

BOLEN WANTS PHONE RATES LOWERED

To the Public:

I saw a letter from Jack Love, chairman of the corporation Commission that we were entitled to reduced rates in the phone charges of the Ada Exchange of the Pioneer Telephone Co. several weeks ago and upon being informed that no action had been taken I made an investigation and ascertained that for

STOVES SMITH'S 203-5 W. Main St.

the purpose of making an excuse for its large earnings it placed its valuation with the Corporation Commission at \$54,474.72 and earned nearly 17 per cent on this amount, but that when it swore to its taxable valuation for the years 1911-12 it placed its valuation at \$8,043,000 and if this is the correct valuation it earned over one hundred per cent. I found that it had grossly violated its original contract with the city to furnish resident phone at \$1.25 per month. That it has become so disregardful of the public as to cut out a collector to collect this enormous earning and that it pays the girls that work for it about one-half of what it should pay. That it is very czar-like in making rules and regulations and has gone to the extent of making a party stand guard at his phone to keep other people from talking over it and if they do you must pay.

Under these conditions I felt it my duty to file complaint against them which has this day been sent in. I write this to solicit the aid of all patrons to assist me in stopping this monstrous conduct and if any one has any information or complaint I will be glad to have same. I do not intend to run for office, and have an aversion to getting into print but I cannot stand such a hold-up as this. Respectfully,

JAMES W. BOLEN.

A Pretty Romance.

Mr. and Mrs. E. H. Lewis arrived this morning on the 11:30 southbound Katy for a visit to the former's sister Mrs. W. H. Guyer. Their coming also brings to light a little romance beginning almost four years ago when Mr. Lewis entered the service of the government in the East. Two months

later he was sent to San Francisco, Calif., and while waiting for his train in Atlanta, Ga., he met Miss Jessie Hammack by exchange of glances, until they boarded the train, she going down to her home at Tallapoosa, a small station below Atlanta. There was a small conversation an exchange of cards and he went on to Frisco. A few days after reaching the city a letter followed him and a friendly correspondence followed until last May when he decided to make a brief tour of Georgia and came back well pleased with his visit which resulted in another visit in September and culminated in their marriage on Sept. 18th. On account of the long illness and loss of her father in September her health gave down and she was unable to come to Ada sooner. This will be their home as he is one of the popular light plant men.

NOTICE TO THE PUBLIC.

For the convenience of the
public, the Evening News will
hereafter be on sale at the Post-
office News stand for the small
sum of 2c. The same rate will
prevail at the News office. This
is less than the actual cost of
the paper, and it is impossible to
make the price any lower. The
publishers would like to give it
away, but every paper costs mon-
ey to print, and if it is worth
reading at all, the News is cer-
tainly worth the small sum ask-
ed for it.

Ada should have some pleasure
re-ort near town, not only for the
recreation of its citizens but also for the
benefit of visitors. At present it is often
embarrassing when one's friends
come on their first visit to Ada be-
cause of absence of some place of the
kind at which to entertain them.
Byrd's Mill is a little too far to be
convenient, and something nearer
home is needed. These country clubs
are very fine things to have near
town, and nothing would please the
News better than to see one estab-
lished here.

The editor of the Chickasha Ex-
press offers a year's subscription to
the farmer leaving the biggest tur-
key at his office between now and
Thanksgiving. It is our opinion that
a gold brick scheme like that will
not work.

ANOTHER SUSPENSION.

The Wichita Falls Daily News has
ceased publication, under an agree-
ment with its contemporary, the
Times, to fill out unexpired contracts.
This is another case of too much of
a good thing. Wichita Falls is a
lively and valorous little city, and
some time will be able to support two
first-class newspapers, but the time
is not yet, and the News, which was
well born and energetically con-
ducted, had to give way to the older and
more firmly established institution.

THE DANGER OF RHEUMATISM

The danger of Rheumatism is in
temporizing in the treatment, or
in failing to realize the powerful
nature of the trouble. If the blood
is allowed to remain infected with
uric acid, Rheumatism soon be-
comes chronic, and then if not
checked it sometimes makes com-
plete physical wrecks of its victims
by permanently stiffening the joints
and seriously interfering with the
bodily nerve force. External ap-
plications will often temporarily
relieve Rheumatic pains, but do not
reach the blood, where the cause is
located, and to depend entirely
upon such treatment is a very
dangerous thing to do. S. S. S.
cures Rheumatism by removing
every particle of the cause and
purifying the blood. It filters out
of the circulation every trace of the
sour, inflammatory matter, cools
the acid-heated nerves, causes a
natural and healthy nourishment
through the blood to all muscles,
joints and bones, and perfectly cures
Rheumatism in all its forms. S. S. S.
does this great work because it is the
greatest of all blood purifiers, acting
directly on the source of the disease.
Our special book on Rheumatism and
any medical advice will be sent free
to all. S. S. S. is sold at drug stores.

nounced Tuesday that beginning De-
cember 2, every acre of unallotted
land in the Cherokee Nation, 14,000
acres, will be sold at auction to the
highest bidder, regardless of the price
offered or former valuation placed on
the land by government appraisers.
If only 1 cent per acre is bid the land
will be sold for that amount. Most of
it is either rough mountain land or
overflow on the river bottoms and in
small tracts. There are a great many
ten and twenty acre tracts along the
banks of the Illinois river and the
Barron fork in the Ozark hills, how-
ever, that will be eagerly sought by
wealthy people who want such prop-
erty for hunting and fishing lodges.
The land in each county will be sold
at the county seats, but the exact
dates except the first one at Tah-
lequah have not been announced.

PHILADELPHIA WINS WORLD'S CHAMPIONSHIP

Philadelphia, Oct. 26.—(Special)—
Today's game was a Waterloo for the
Giants, the Athletics piling up a score
of 13 against 2 for their adversaries.
Philadelphia simply batted the ball
all over the ground. New York sent
in three pitchers, but to no avail.
Ames pitched until the fifth inning,
when he was relieved by Wiltse, who
in turn was relieved in the seventh by
Marquard. Today's game clinches the
World's Championship, Philadelphia
winning four out of six games play-
ed.

DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Rem-
edy Will Bring Back the Nat-
ural Color.

"Pull out one gray hair and a dozen
will take its place," is an old saying,
which is, to a great extent, true, if
no steps are taken to stop the cause.
When gray hairs appear it is a sign
that Nature needs assistance. It is
Nature's call for help. Gray hair, dull,
lifeless hair, or hair that is falling
out, is not necessarily a sign of ad-
vancing age, for there are thousands
of elderly people with perfect heads
of hair without a single streak of
gray.

When gray hairs come, or when the
hair seems to be lifeless or dead,
some good, reliable hair-restoring
treatment should be resorted to at
once. Specialists say that one of the
best preparations to use is the old-
fashioned "sage tea" which our
grandparents used. The best prepara-
tion of this kind is Wyeth's Sage and
Sulphur Hair Remedy, a preparation
of domestic sage and sulphur, sci-
entifically compounded with later dis-
covered hair tonics and stimulants,
the whole mixture being carefully
balanced and tested by experts.

Wyeth's Sage and Sulphur is clean
and wholesome and perfectly harm-
less. It refreshes dry, parched hair,
removes dandruff and gradually re-
stores faded or gray hair to its nat-
ural color.

Don't delay another minute. Start
using Wyeth's Sage and Sulphur at
once and see what a difference a
few days' treatment will make in your
hair.

This preparation is offered to the
public at fifty cents a bottle, and is
recommended and sold by all drug-
gists.

KATY SUPERINTENDENT INVESTIGATES CROSSINGS

Supt. Brown of the Katy was here
yesterday conferring with Mayor
Chapman regarding the placing of ad-
ditional crossings over the railroad.
He did not raise any particular ob-
jection to another viaduct or two con-
necting with Hays addition, but stated
that it worked no small hardship
to open 10th street, as the road is
badly enough cramped at the depot
already, and would make impossible
further improvements when the
growth of the town demanded addi-
tional facilities.

R. E. Blanks states that there has
never been a time in the history of
this section when there was such a
demand for farm land as at present,

Vitagraph Monthly of Great Events

This wonderful picture gives us the great happenings of the day—things we read about and very seldom see. We peruse our newspapers and are struck at once by the headlines of the great things that are taking place in the world, and wish we were fortunate enough to witness them.

TO-NIGHT

You will have a chance to witness a picture of those great events. No such picture has ever been shown before in a city of this size, but the best is not any to good for Ada. Some of the things you will see in this picture:

A THRILLING

Head-On Collision

BETWEEN TWO GIANT LOCOMOTIVES

Going at a speed of 60 miles an hour, just after the crews have jumped from the cabs. They are interlocked with each other, like two giants, wrestling, steaming, groaning, as they collapse in a death struggle—a scene long to be remembered. This great picture is indorsed by the Brotherhood of Locomotive Engineers. Furthermore we are brought face to face with President Taft Reviewing the Great Annual Sunday School Parade, Brooklyn.

APPROPRIATION FOR INDIGENT CHOCTAWS

Muskogee, Okla., Oct. 25.—It was stated here today by Indian Superintendent Dana H. Kelsey that the Choctaw council at its recent session had voted an appropriation of \$50,000 to care for aged and infirm Indians, and those afflicted with tuberculosis. Many of the full-bloods have been suffering from consumption and there has been no way to care for them. Hereafter the tribe will send them to

the proper climate and give general aid. The Interior Department as well as Gov. Victor Locke of the Choctaws has been interested in this movement. The money will be available as soon as President Taft approves the action of the council.
